

# Visiting the Courthouse

The County was created on April 13, 1795.

The original courthouse was built in 1804, rebuilt in 1860 and 1970, both in this exact location. Currently, county departments are spread throughout three buildings in the downtown Williamsport area.

A variety of business can be conducted at the County courthouse.

Marriage, dog, hunting and fishing licenses are available, and the offices for acquiring your passport and registering to vote are located here also.

explanation of what  
some departments  
do](#)

Career Day Presentations, with segments conducted by attorneys, parole officers, deputies and 911 operators are also available for schools.

Please call the Court Administrator's office for more information on tours, presentations or to schedule large class trips.

**Thank you.**
