Introducing Medical Director Dr. Frank Mazzotta

www.PartnershipHealthCenters.com

Meet Dr. Frank Mazzotta D.O. - he has been named Medical Director of the recently opened Partnership Health Center Lycoming County (PHCLC). In addition to being a graduate of The Philadelphia College of Osteopathic Medicine with a fellowship in Family Practice, he is also Board Certified in both Hospice and Palliative Medicine. Prior to joining PHCLC, Dr. Mazzotta maintained a private Family Practice over the last 20 years and also worked for Vitas Healthcare.

Dr. Mazzotta is a long-term resident of Philadelphia but will be living in Lycoming County during the week. He became interested in joining the local community once he learned of PHC's history of providing easy access to care, which he regards as vital to good health. Dr. Mazzotta had been working in a variety of jobs and settings over the years and cited the list of available services in Partnership Health Centers as another reason he was motivated to join the organization. In addition to same-day appointment scheduling for medical visits, provided by both an MD and Nurse Practitioners, there is also Physical Therapy (PT), X-Ray, an on-site pharmacy , laboratory services and Behavioral Health services with a Masters level clinician – and there are **never any co-pays or deductibles.**

Our first Pennsylvania location follows the successful model found in the other six (6) locations in central New Jersey. The focus of our efforts is to help individuals treat one mind and body in a single healthcare “home”...a one-stop-shop. Over many years, this has helped numerous families and individuals gain access to care they may have otherwise forgone due to financial issues or the inability to find streamlined medical care.

Dr. Mazzotta recounted the situation of a patient recently seen at PHCLC who expressed that they had been plagued by ongoing shoulder pain for over a year. They had not been able to adequately address their medical problem, primarily as a result of not being able to afford the ongoing co-pays that were expected at each visit. Dr. Mazzotta was happy to report that this patient is now receiving the regular and ongoing treatments they need, without worrying about the financial burden that prevented them from seeking care for so long. He reported that seeing the smile on his patient’s face made his day, knowing that they will now be OK as they are no longer faced with the financial barriers previously in place.

We encourage you to take advantage of all Partnership Health Center Lycoming County has to offer and see for yourself just how convenient our unique approach to healthcare really is, and how much it can improve the lives of you and your family members. Schedule an appointment today. Join us in good health.

Contact your Partnership Health Center (PHC) today to learn more about the many services available to you and your covered dependents - all at no cost! Partnership Health Centers (PHC) are open 7 days a week and there are never any co-pays!
