Teleconference Public Meeting Minutes**

August 18, 2025 Technical Committee Teleconference Public Meeting: held at 33 W. Third Street, Lyco. Conference Room, 3rd Floor, Williamsport, PA 17701 and various locations via teleconference.

CALL TO ORDER (Regular WATS Technical Committee Public Meeting)

At 10:05 AM Justin Batiuk called the meeting to order. Jenny Picciano mentioned that the meeting is being recorded. Everyone online and in-person introduced themselves and their organization.

MINUTES

Justin asked if there were any issues with the minutes from the previous meeting on January 27, 2025. No issues were found. Motion to approve was by Sal Vitko, 2nd by Jenny Picciano. Motion carried to approve the minutes.

There was no public comment.

ACTION ITEMS

Re-affirm e-ballot 2025 WATS MPO RVTA TIP Amendment:

Justin explained that the amendment is to add federal transit funds to the WATS MPO RVTA TIP. It was approved via e-ballot prior to the meeting by both technical and coordinating committee. Jenny Picciano made a motion to re-affirm. Sal Vitko 2nd. Motion unanimously approved.

2025 WATS MPO RVTA TIP Amendment:

Justin explained how he and Sal worked together to add the amendment to the 2025-2028 WATS TIP. Sal explained how Federal Transit Authority (FTA) withheld RVTA funding due to financial history. Before attempting to access FTA funds, RVTA had to finalize land subdivision of offices and natural gas filling station on West Third Street from the City of Williamsport. Subdivision was completed late July 2025 which allowed RVTA to apply for the 2020 FTA funding. The amendment is to add the state and local share to the FTA federal funding. Sal Vitko made a motion to re-affirm, Valerie Fessler 2nd. Motion unanimously approved.

WATS bylaw updates:

Justin explained how the County reorganized the transportation department when the previous staff left, removing the title of Transportation Supervisor. Emily explained that they would like the new language to read, "The primary staff contact for the Department on WATS MPO

administrative matters shall be the Lycoming County Transportation Planner, selected by the Lycoming County Planning and Community Development Director, who will act as WATS Secretary.” A second change to the bylaws is to separate the City of Williamsport engineer and community development director. Each position will now have a vote. Jenny Picciano made a motion to approve of bylaws changes, Sal Vitko 2nd. Motion unanimously approved.

Transit Agreement:

Justin explained how with the last TIP update, the federal government updated requirements for transit agreements between MPO/RPO and transit agencies. This agreement will be between WATS MPO, RVTA, and PennDOT outlining roles and responsibilities. FHWA, Sal, Kellen, and Emily have reviewed the document. Eric McKitish made a motion to approve, Jenny Picciano 2nd. Motion unanimously approved.

DISCUSSION ITEMS

2027 TIP Update:

Emily explained how the WATS staff is learning about the TIP as well as updating it for 2027-2030. WATS is working with PennDOT District 3-0 and RVTA to update the new TIP. Chris King mentioned that many of the items will most likely be carry over projects but they will have a more solidified list by the next TIP meeting in October. Sal Vitko mentioned that RVTA is looking at capital projects and will also have a more complete list by the October TIP meeting.

Modal Updates:

Eric McKitish updated the Committee on the airport. The airport is doing well. They are in contact with multiple airlines such as American, Delta, United, Allegiant, Breeze, and Frontier. He is hoping to have more good news within the next couple months regarding additional air service. Current service, Southern Airways Express, had a successful 2nd quarter and the current 3rd quarter number are increased compared to past quarters. He stated that if people continue to support the airport, more lines will come.

Sal Vitko updated the Committee on RVTA. As previously mentioned, the subdivision from the City of Williamsport had been finalized. They will be kicking off the transit development plan in mid-September. Currently waiting on the finalization of the scope of work with STB Consulting and PennDOT. A steering committee will be created soon for the TDP. A few of the future capital projects include a new bus wash with water reclamation with PennDOT contractor JMT, 3 - 35' Gillig Natural Gas busses to be delivered by end of 2025, and Church Street Parking Garage structural and access control repairs and upgrades. Little League Express is up and running. It is a very busy time of year for RVTA. Ridership from May to mid-August is approximately 223,000 – which is an increase from last year at this time.

Management Action Report:

Chris King stated that the MA report displays the financial maneuvers on the TIP. Many of the items in the MA report are to remove unused utility phases. This is a common practice at the end of a fiscal year to avoid loss of funds. A PE phase was added to 2 projects. District 3-0 acquired federal Protect funds from Central office for the Warrensville Road project.

Justin asked if there was any other business or public comment. Hearing none, Justin called for a motion to end the meeting. Jenny Picciano motioned to end the meeting, and Valerie Fessler 2nd, motion carried and the meeting ended at 10:28am.

Respectfully, Submitted,

Emily Mrochko
WATS Secretary

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF TRANSPORTATION

November 4, 2025

Dear Planning Partners:

Pursuant to the Code of Federal Regulations (23 CFR § 490) regarding National Performance Management Measures for the Highway Safety Improvement Program (HSIP), Pennsylvania has established the 2026 targets for the following Safety Performance Measures:

- 1) Number of fatalities
- 2) Rate of fatalities per 100 million Vehicle Miles Travelled (VMT)
- 3) Number of serious injuries
- 4) Rate of serious injuries per 100 million VMT
- 5) Number of non-motorized fatalities and serious injuries

The Pennsylvania Department of Transportation (PennDOT) is required to establish these targets by August 31 each year. The 2026 targets found in Table 1 of the enclosure are based on a data driven trend analysis of the statewide fatality and suspected serious injury numbers (2 percent annual fatality reduction and maintaining level suspected serious injuries).

Metropolitan Planning Organization (MPOs) are required to establish targets within 180 days of PennDOT establishing its targets (by February 27, 2026) either by agreeing to plan and program projects in support of the PennDOT targets, or by establishing their own quantifiable targets. For consistency, PennDOT is requesting Rural Planning Organizations (RPOs) follow the same procedure. Table 2 of the enclosure reflects values for your MPO/RPO based on the same methodology that was used at the state level. MPOs/RPOs wishing to establish their own quantifiable targets are requested to coordinate with PennDOT as early as possible, but no later than December 31, 2025.

A state is determined to have met or made significant progress toward meeting established targets if the outcome in 4 of 5 performance measures is better than the baseline number. For Pennsylvania's 2024 targets, the Federal Highway Administration (FHWA) will report this determination by March 31, 2026.

Based on preliminary data, we do not expect Pennsylvania to meet our 2024 targets and anticipate will be subject to the provisions of 23 United States Code § 148 (i). This will require the Department to submit an implementation plan that identifies gaps, develops strategies, action steps and best practices, and includes a financial and performance review of all HSIP funded projects. This plan will be due June 30, 2026. In addition, we will be required to obligate in Federal Fiscal Year (FFY) 2027 an amount equal to the FFY 2023 HSIP apportionment (\$128,666,054).

For more information, please visit the FHWA Safety Performance Management website at <https://safety.fhwa.dot.gov/hsip/spm/>.

Please note your response by using the form on the next page. Your response is requested before February 27, 2026.

Should you have any questions, please contact Matthew Crea, Transportation Planning Manager, Center for Program Development and Management, at 717.787.2862 or mcrea@pa.gov.

Sincerely,

Kristin A. Mulkerin
Deputy Secretary for Planning

Please complete the following:

Planning Organization Name

Select one of the following options for establishing Safety Performance Measures:

- ☐ The MPO/RPO agrees to plan and program projects so that they contribute toward the accomplishment of the established PennDOT targets. The MPO/RPO will have the option to establish quantifiable targets of their own each year when new PennDOT targets are established. Table 2 of the enclosure reflects corresponding MPO/RPO values.
- ☐ The MPO/RPO has established quantifiable targets for each performance measure for our planning area. The targets and methodology used to develop them are enclosed with this letter. This option will require PennDOT coordination with the Federal Highway Administration to ensure that the targets established are not just aspirational but achievable based on the projects that are programmed on the MPO/RPO's Transportation Improvement Program. If choosing this option please notify the Center for Program Development and Management (CPDM) by December 31, 2025.

FEDERAL FISCAL YEAR 2025

REPORT OF OBLIGATED FEDERAL FUNDS

HOW TO READ THIS REPORT

The enclosed report, “MPO TIP WITH STATE MATCH, ENCUMBRANCES AND EXPENDITURES” accompanies the individual MPO quarterly report. It identifies specific projects and provides details regarding obligations and encumbrances/expenditures on those projects. This report also shows the state match associated with projects that had obligations during the period.

The following is an explanation of the items in this report:

- The first column “MPMS” is the project identification number in the multi-modal project management system (MPMS).
- “Short Title” is the name of the project as it can be found in MPMS.
- “Phase” is the list of phases associated with a particular project that is on the Transportation Improvement Program (TIP).
- “District” is the engineering district where the project is taking place.
- “County” is the county where the project is taking place.
- “SR” and “Section” define the State route and section number assigned to the project.
- The federal funds obligated during the period can be found under “Obligations.” These represent federal authorizations to proceed with specific project phases.
- The corresponding state match, if any, can be found in the column entitled “State Match.”
- “Encumbrances/Expenditures” are 100% state funds associated with the project, and are also reported by phase.
- The next four columns are the dollars programmed on the TIP for the project sorted by TIP year, the proceeding four columns are totaled in the last column entitled “Program Total.”
- Entries that contain a “0” in the “Program Total” column are individual project phases that were not on the TIP as of September 30, 2020 and were since then added to this report.
